Cabinet of the Minister

Министерство на околната среда и водите
Вх. № ЕО-6
София 05.05. 2017 г.

To: Ministry of Environment and Water
Bulgaria

Subject: investment plan (IP) "Zonal Urban Plan – Used oil recycling plant"

**Dear Ms. Kostova,**

Please allow me to take this opportunity and thank you for your letter no. EO-6, dated 04 April 2017, regarding the willingness of Republic of Bulgaria to participate in the strategic environmental assessment (SEA) for "Zonal Urban Plan - Used oil recycling plant" together with your comments and proposals on the scope and content of the Environmental Report for this plan.

In this respect, we would like to inform you the following aspects:

The Environmental Report includes information on the environmental characteristics likely to be affected by the project and an analysis of the potential environmental impact of this project on the environment factors and environmental objectives established.

To reduce potential negative effects on the environment, both during construction and operations, several measures have been proposed in advance to eliminate, prevent and mitigate such likely adverse effects in order to ensure project implementation with minimal environmental effects.

The information you requested is not available at this stage of the investment. The aspects mentioned in your letter will be developed at the project level in a subsequent phase.

**Ms. Irina Kostova**
