

# **Environmental Impact Assessment Report**

## **for the Facility for Treatment and Conditioning of Radioactive Waste with a High Volume Reduction Factor at Kozloduy Nuclear Power Plant**

### **CHAPTER 11**

#### **OTHER INFORMATION**

## CONTENTS

### 11. Other information

#### 11.1 List of the attachments

#### 11.2 References

##### 11.2.1 Used reference sources

##### 11.2.2 Used legislative documents

#### 11.3 Assessment of the Best Available Techniques (BAT)

##### 11.3.1 International experience for plasma based waste treatment

##### 11.3.2 IAEA recommendations

##### 11.3.3 Best Available Techniques according to the IPPC Directive

##### 11.3.4 Assessment and comparison of the emission values for the Kozloduy PMF, the ZWILAG PMF, the CILVA incineration facility

## 11.1 List of the attachments

### CONTENTS

- Attachment 1:** List of experts under EPA art.83 (2) and (4), and of the team leader, authors of the present EIA-R of the Investment Proposal for implementation of a Facility for the Treatment and Conditioning of Radioactive Wastes with High Volume Reduction Factor at Kozloduy Nuclear Power Plant, according the provisions of art.12 (1) of the Ordinance on the Conditions and Order for Performance of an Environmental Impact Assessment (*submitted signed by all experts in the Bulgarian version of the EIA-R*)
- Attachment 2:** Copies of the master degree diploma as well as other qualification documents for all EIA experts and the team leader, authors of the present EIA-R of the Investment Proposal for implementation of a Facility for the Treatment and Conditioning of Radioactive Wastes with High Volume Reduction Factor at Kozloduy Nuclear Power Plant
- Attachment 3:** Written statements as per art.11 (3) of the EIA Ordinance by each of the EIA Experts and by the EIA Team Leader (*submitted signed by all experts in the Bulgarian version of the EIA-R*)
- Attachment 4:** Decision No 26-PR/2010 of the Minister of MEW on evaluation of the need to perform an EIA of the “Facility for treatment and conditioning of solid radioactive waste with a high volume reduction factor at Kozloduy NPP”, Ref. No.26-00-939/20.07.2010
- Attachment 5:** Copies of the letters sent by the Proponent of the Investment Proposal for consultations under the EIA procedure of the “Facility for treatment and conditioning of solid radioactive waste with a high volume reduction factor at Kozloduy NPP
- Attachment 6:** Copies of the received written statements under the EIA procedure “Facility for treatment and conditioning of solid radioactive waste with a high volume reduction factor at Kozloduy NPP
- Attachment 7:** Written documents on the exchange on the exchange of information for EIA in transboundary context (with the CA of Republic of Romania)
- Attachment 8:** Cultural heritage sites in the 30-km area around Kozloduy NPP
- Attachment 9:** Experience from Greifswald NPP Decommissioning in Germany (EWN Environmental Impact Register-Summary)
- Attachment 10:** Results from the pollutants dispersion modeling
- Attachment 11:** KNPP Permits for Wastewater Discharge in Surface Waterbodies

**Attachment 12:** KNPP Water Use Permits

**Attachment 13:** MEW and RIEW Decisions relatives to art.45 of the Waste Management Act regarding waste management activities at KNPP

**Attachment 14:** KNPP Conventional Waste Management Program, ID No.DOD.UOC.PM.402/02 (cover page)

**Attachment 15:** KNPP Emergency Plan – cover page

**Attachment 16:** 16.1. Draft of an Environmental and Social Action Plan (ESAP)  
16.2. Draft Environmental Management Plan –  
A. Mitigation Plan  
B. Monitoring Plan

**Attachment 17:** Assessment of Compatibility with the Conservation Subject and Purposes in the Protected Areas (Assessment of the Degree of Impact on the Protected Areas)

**Attachment 18:** Summarized results from physical and chemical testing of wastewater and underground water in the RCMIW site

**Attachment 19:** Comments table with explanations for included correction based on the MEW EIA R and CAR Quality assessment (MEW letter OVOS - 277/13.12.2012 and MEW Letter OVOS-277/28.05.2013)
